

## SAFETY DATA SHEET

Date: November 2019

Reference: FTPE/PJO

### SECTION 1: Identification of the substance / mixture and of the company undertaking

**1.1 Product Identifier :** Fabric Transfer Paints Elite

Substance Name	Mixture
EC No.:	Not applicable
Reach Registration No.:	Not applicable
CAS No.:	Not Applicable

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses: As a fabric transfer paint

Uses advised against: All other uses

Reasons why uses advised against: The Fabric transfer paints Elite have been developed and tested specifically for this application and are not recommended for any other use.

### 1.3 Details of the supplier of the safety data sheet

Supplier: Creative Art Products Limited  
Scola House, 10 Dalton Way  
Middlewich, Cheshire  
CW10 0HU  
U.K

Telephone Number: 01606 836076

Fax Number: 01606 841727

Email address: [orders@scolaquip.co.uk](mailto:orders@scolaquip.co.uk)

### 1.4 Emergency telephone number

Number: 01606 836076

Opening Hours (GMT): 8am-5pm Monday-Thursday, Friday 8am-12.45pm

Language: English

## **SECTION 2: Hazards Identification**

### **2.1 Classification of the substance or mixture**

#### 2.1.1 Classification according to Regulation (EC) No. 1272/2008 (CLP)

This product does not meet the criteria for classification in any hazard class according to Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures. However a safety data sheet is being supplied for it on request.

#### 2.1.2 Classification according to Directive 1999/45/EC

This product does not meet the criteria for classification in accordance with Directive 1999/45/EC. Information on the substances in the mixtures is provided under Subsection 3.2.

### **2.2 Label Elements**

The product does not require labelling according to Regulation (EC) No. 1272/2008 (CLP)

### **2.3 Other Hazards**

## **SECTION 3: Composition / Information on ingredients**

3.2.2 The product does not meet the criteria for classification in accordance with Directive No. 1999/45/EC where substances present in an individual concentration equal to or greater than the following concentrations shall be indicated, together with their concentrations or concentration range:

a) 1% by weight in non-gaseous mixtures.

## **Section 4: First aid measures**

### **4.1 Description of first aid measures**

General Notes	In all cases of doubt or concern seek medical attention.
Following Inhalation	Remove to fresh air
Following skin contact	Wash affected area with water. Remove and wash contaminated clothing before re-use. Seek medical advice if there is irritation.
Following eye contact	Rinse immediately with plenty of clean water, holding the eyelids open for at least 10 minutes. If irritation persists seek medical attention.
Following ingestion	Rinse out the mouth with plenty of water and give water to drink. If the quantity is significant or the subject feels unwell seek medical attention. Do not induce vomiting.

## **Section 4: First aid measures (continued)**

Self protection of the first aider No additional measures

### **4.2 Most important symptoms and effects, both acute and delayed**

Information on the products component indicates no acute or delayed symptoms are to be expected

### **4.3 Indication of any immediate medical attention and special treatment needed.**

No special treatment needed.

## **SECTION 5 Fire-fighting measures**

### **5.1 Extinguishing Media:**

Suitable extinguishing media: Water spray. Powder, foam or carbon dioxide

Unsuitable extinguishing media: High volume water jet

### **5.2 Specific hazards arising from the substance or mixture:**

Harmful fumes may be formed on combustion of the product.

### **5.3 Advice for Fire-fighters**

Wear self contained breathing apparatus, avoid rejection of extinguishing water into the environment.

## **SECTION 6: Accidental release measures**

### **6.1 Personal precautions, protective equipment and emergency procedures**

In the case of a significant spillage remove all those not involved in the clean up from the vicinity. Wear rubber / PVC gloves. Spillages will be slippery: take care.

### **6.2 Environmental precautions:**

Keep away from drains, surface and groundwater.

### **6.3 Methods and materials for containment and cleaning up:**

If the spillage is large transfer the product into buckets or drums using brushes and shovels. For small amounts of spilt product the majority should be soaked up with paper towel and the balanced wiped up with damp cloths.

### **6.4 Reference to other sections**

See section 13 for disposal of spillages / residues from spillages.

## **SECTION 7: Handling and storage**

### **7.1 Precautions for safe handling**

Take care to avoid spills. Do not eat and drink when using the product. Wash hands after use and remove any items of contaminated clothing.

### **7.2 Conditions for safe storage including any incompatibilities**

Store the product in its original container between 5 and 25 degrees C.

## **SECTION 8: Exposure controls / personal protection**

### **8.1 Control Parameters**

Information on the product and its components indicates that this is not applicable.

### **8.2 Exposure controls**

#### **8.2.2 Personal protective equipment**

8.2.2.1 Eye and Face protection: Not required

8.2.2.2 Skin Protection:  
Hand Protection: Gloves only if contact repeated and / or prolonged.  
Other skin protection: Aprons or old clothes.

## **SECTION 9: Physical and Chemical Properties**

- |                            |   |
|----------------------------|---|
| (a) Appearance:            | Coloured liquid                                 |
| (b) Odour:                 | Slight  |
| (c) Odour threshold:       | Not applicable                                  |
| (d) Ph:                    | Not determined                                  |
| (e) Freezing point:        | 0 degrees C (value given for water component)   |
| (f) Initial Boiling point: | 100 degrees C (value given for water component) |
| (g) Flash point:           | Not applicable                                  |
| (h) Evaporation rate:      | As water  |
| (i) Flammability:          | Not applicable                                  |

## **SECTION 9: Physical and Chemical Properties (continued)**

(j) Upper / Lower flammability: Not applicable  
Or explosive limits

(k) Vapour Pressure: 18mm/HG at 25 degrees C (value given for water component)

(L) Vapour Density: Not known

(m)Relative Density: 1.0 – 1.05g/ml at 20 degrees C

(n)Solubility in water Complete

(o) Particle coefficient: No information available  
n-Octanol/water

(p) Auto-ignition temperature: Not determined

(q) Decomposition temperature: Not determined

(r) Viscosity: Not determined

(s) Explosive properties: Not applicable

(t) Oxidising properties: No information available

## **SECTION 10: Stability and reactivity**

### **10.1 Reactivity**

No known hazardous reactions in usual handling

### **10.2 Chemical Stability**

Under storage at normal ambient (5-25 degrees C) the product is stable.

### **10.3 Possibility of hazardous reactions**

No known hazardous reactions in usual handling

### **10.4 Conditions to avoid**

None anticipated during usual handling. (See section 7)

### **10.5 Incompatible materials**

None anticipated during normal handling and use. Avoid contact with other materials particularly acids, alkali's and strong oxidising agents.

### **10.6 Hazardous decomposition products**

The product does not decompose when used for its intended uses.

## **SECTION 11: Toxicological Information**

The product has not been tested for its health effects as a whole, relevant information on relevant substances listed under section 3 would usually be provided, however in this case there are no substances required to be listed under section 3.

## **SECTION 12: Ecological Information**

There is no specific information available for the product. From information on its components we do not consider it to present a significant ecological hazard as supplied.

## **SECTION 13: Disposal Consideration**

Waste product should not be discharged into drains or waterways without treatment. Disposal of product and packaging should always comply with local and national regulations.

EU Waste code                      No waste code number available

## **SECTION 14: Transport Information**

This product does not meet the requirement for classification as dangerous for transport by road, rail, inland waterway, sea or air.

However as with all chemical-based products it must, when being transported, be handled in a manner that minimises the risk of damage and leakage from the packages.

## **SECTION 15: Regulatory Information**

### **15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.**

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

The data should be considered when making any assessment under the Control of Substances Hazardous to Health Regulations (COSHH), and related guidance, for example, 'COSHH Essentials' (United Kingdom).

This product does not contain any persistent organic pollutants, as defined in EC regulation No. 850/2004, or any ozone depleting substances, as defined in EC regulation No. 2037/2000, nor is it subject to the provisions of Regulation (EC) No. 689/2008 concerning the import and export of dangerous chemicals. This product does not contain any substance which is a named Seveso substance nor is it in a Seveso category.

### **Other EU Regulations**

Article 2 of the Safety of Toys Directive 2009/48/EC defines toys as products "designed or intended, whether or not exclusively, for use in play by children under 14 years of age". To ensure compliance the product is independently tested.

**SECTION 16: Other Information:**

This safety data sheet is based upon the current state of our knowledge and supersedes all previous versions.

The principal sources of information used in compiling the Safety Data Sheet for the product were: Safety Data Sheets from our component suppliers and the ECHA publication guidance on the compilation of safety data sheets, version 2.1 dated February 2014.
