

PRODUCT INFORMATION

BATIK DYES AND FIXER

Fabric and Textiles/Elite

Ready to use in highly concentrated form, Batik Dyes can be used directly from the bottle for intense vibrant colours or can be diluted with water for a range of tones.

S0375040 Batik Dyes - 4 x 250ml bottles Yellow/Red/Blue/Green/

S0377590 Dye Fixer 1ltr bottle

Suitable for use on paper as well as most natural fabrics. The 4 colours can be mixed together to provide a vast array of colours. Use the dyes for dipping, brushing on, wax resist on paper and traditional batik work. The dyes are easily cold fixed using Dye Fixer.

Dye fixer is for use with our Batik Dyes on most natural fabrics.

IDEAS/HINTS & TIPS

Dye fixer allows designs to be cold fixed by covering the design with the fixer and leaving in a sealed plastic bag, for a minimum of two hours or up to several days. Once the time has elapsed the fixer is rinsed from the fabric using clean water. The fabric should then be laundered in the normal way. It is recommended that children use this product under supervision. Clothing and work surfaces should be protected.
