- The vivid colours are water based and semi-translucent, they resist mixing and don't flake.
- They do not easily blend, enabling spectacular effects to be created onto paper, wood and acetate, and are a fantastic alternative to watercolour paint.
- Cromar is ideal for painting on to windows and it washes off glass easily with a damp cloth or sponge.

### IDEAS/HINTS & TIPS

Clothing and work surfaces should be protected, paints can stain.

May wash out of fabric with cool water. Pre-soak dried stains overnight in cool water with small amount of detergent. Work gently by hand until the stain is removed. Stains may not come out if machine washed without pre-soaking.
