IDEAS/HINTS & TIPS

Use a brush or a sponge to colour fabrics with a blend of Fab-Effects. Once dry these can be pieced together by hand or with a sewing machine. Further detail can be added by painting directly onto the fabric.

Clothing and work surfaces should be protected.

Adult supervision recommended. Make sure you have an old cloth between the piece and the iron to avoid getting paint on the iron plate. We recommend washing new fabric before painting as fabrics can be coated with a size, which can stop the paint adhering.
