

MARVEN MEDIUM Elite

A superb craft and painting medium with Polyvinyl Acetate (PVA) base.

S0380180	Marven Medium 1ltr bottle
S0380190	Marven Medium 5ltr keg

- Marven dries to a completely flexible, almost transparent finish, ideal for modelling, mixing, glazing or as a strong adhesive on porous surfaces.
- Can be mixed with colour pigments without loss of brilliance when dry.
- As an economy measure, Marven can be diluted to form a lightweight adhesive and it forms a transparent glaze when dry.
- Marven also renders difficult surfaces suitable for painting and strengthens card and paper in model making.

IDEAS/HINTS & TIPS

Thin with water to stiffen fabrics.

Clothing and work surfaces should be protected.
